**Grays Dry Lining** is a diversifying commercial interiors company with a reputation for innovation. Grays embraces values and performance that mean over the last 15 years it has established itself as one of the largest dry lining contractors in the UK. Grays' experienced senior management oversee teams of technicians, site managers, contracts managers and quantity surveyors. It delivers a comprehensive package of services including dry lining, lightweight and load bearing metal stud partition systems, plastering, suspended ceilings and lightweight structural steel framing.

Grays also provides fire protection, floor screeding, decorating and finishings services through its group of companies. The company's project management team is available to assist in the smooth running of your job and to liaise between you, your client and materials manufacturers.

The Grays Group founded The Construction Skills Academy and placed training at the centre of its company strategy. Grays trains and develops young people and is able to deliver much of its clients' 106 Planning Deliverables as part of its contract. It has partnerships with the Dept for Work and Pensions, North Herts College Skills Dept, Siniat and HILTI as part of this commitment to training. Grays is CHAS and Achilles registered.
